ALM-121 RAW GREY

ALM-133 SMOKE SILVER

ALM-143 METALLIC BLACK

Color variation may occur between panels from different production batches. If color consistency is required, do not mix different batches. Please order the total requirements for one particular building in a single order for metallic and effect colors, an optical change of color shade may occur due to the metallic particles of these lacquers. To avoid possible reflection differences, it is imperative to install the panels in the same direction as marked on the protective film.
